

What do a good jumpshot, perfect golf swing,
and Nexom's success have in common?
It's all about following through.

At EDI, Napier-Reid, and
Nexom, we believe in

Doing what we say

This is
about so much
more than honesty.

We've built a reputation for
reliability and earned the trust of
engineers, regulators, and operators by
supplying technologies that do what
they're designed to, and by our people
routinely overdelivering on our promises.

David Hume

A Scottish philosopher who paved the way for the scientific method, Hume's life shows the power of following through. Overlooked for much of his career, others would have given up; Hume instead cheerfully re-examined his earlier work even as he blazed new trails, and at long last received the respect he was due.
