SITEWORKS

KEEP YOUR PLANT RUNNING SMOOTHLY

Our **SiteWorks™** team has subject matter experts, supervisors, contractors, subcontractors, and inspectors with the right knowledge and tools for your wastewater aeration project. For lagoons and floating lateral systems, SiteWorks has boats to complete maintenance without draining your basin. Our crews also operate all the required machines to complete projects. We offer Installation Warranties and Preventative Maintenance Plans for every system.

NEW AERATION SYSTEM INSTALLATION

SUPERVISED INSTALLATION

An installation completed under the direct supervision of SiteWorks certifies that the system will perform to the specifications provided in the design

CONTRACTOR INSTALLED - SITEWORKS TESTED

A complete and thorough inspection of a contractor-installed system that is considered ready to start up. Any items determined to not be correctly installed are brought to the attention of the operators for their fix, or by SiteWorks contract.

SITEWORKS INSTALLED

SiteWorks Installations are warranted for a 12-month period for product defects as well as re-installation. *Extended 2-year warranty is available, contact SiteWorks for details.*

EXISTING AERATION SYSTEM MAINTENANCE AND UPGRADES

PREVENTATIVE MAINTENANCE PLAN

Facility operators outsource regularly scheduled aeration system maintenance to SiteWorks Specialists. For new systems, the mechanical warranty is extended to the life of the service agreement.

MEMBRANE REPLACEMENT SERVICE

OEM replacement membranes for most major brands. Services can be scheduled as-needed basis or by regular interval.

We learned a few things installing and upgrading 3,000+ systems...

FIELD SERVICE FOR ANY AERATION SYSTEM

PRE-INSTALLATION VISITS

To provide tips and highlight common errors during installation. EDI can also assist in the inventory process by reviewing the shipment and packing slips with the project information.

START-UP VISITS

Usually consists of three parts: **final installation** inspection of dry equipment, **leak testing** of the system with water, and air and **training** for the operators.

TRAINING AND TROUBLESHOOTING

EDI service team can help troubleshoot your concerns about your system and provide on-site staff training at your plant.

OUR CUSTOMERS VOUCH FOR US!

"The owner and I were quite impressed with the crew. I would highly recommend them to any other municipality looking to upgrade their aeration basins. The SiteWorks crew did an efficient, safe, and respectful job during this project and they were a pleasure to work with"

Joe Anaya, Moltz Construction Superintendent on our team replacing 64,000+ Ceramic Disc Diffusers with High-Efficiency EDI Membranes in 12 Basins at **Metro Wastewater Reclamation District, Denver, CO**

"We would like to thank you for your promptness, attentiveness, and professionalism throughout this project. All involved did a great job. It was a pleasure doing business with you. Looking forward to future projects."

Kevin Lang, VP of Wynn Construction on our SiteWorks team replacing 43,244 Disc Diffusers Membranes at **North Canadian WWTP**

AERATION PARTS

Fast and Reliable Supply of New and Replacement Diffuser Parts and Membranes for All Brands

THE RIGHT PARTS YOU NEED, WHEN YOU NEED IT

Aeration parts aren't considerate enough to fail on a schedule. Our aftermarket parts team provides fast turnaround on a broad range of American-made aeration parts and membranes for all major brands, with most common parts delivered fast from a ready stock at our 11,000 SQFT dedicated parts warehouse to keep your plant running smoothly. We have a team of Application Engineers that can help customers identify the right parts when needed.

WHETHER YOU ARE SHOPPING FOR A FULL SYSTEM UPGRADE OR A FEW MEMBRANE REPLACEMENTS, CONTACT US
